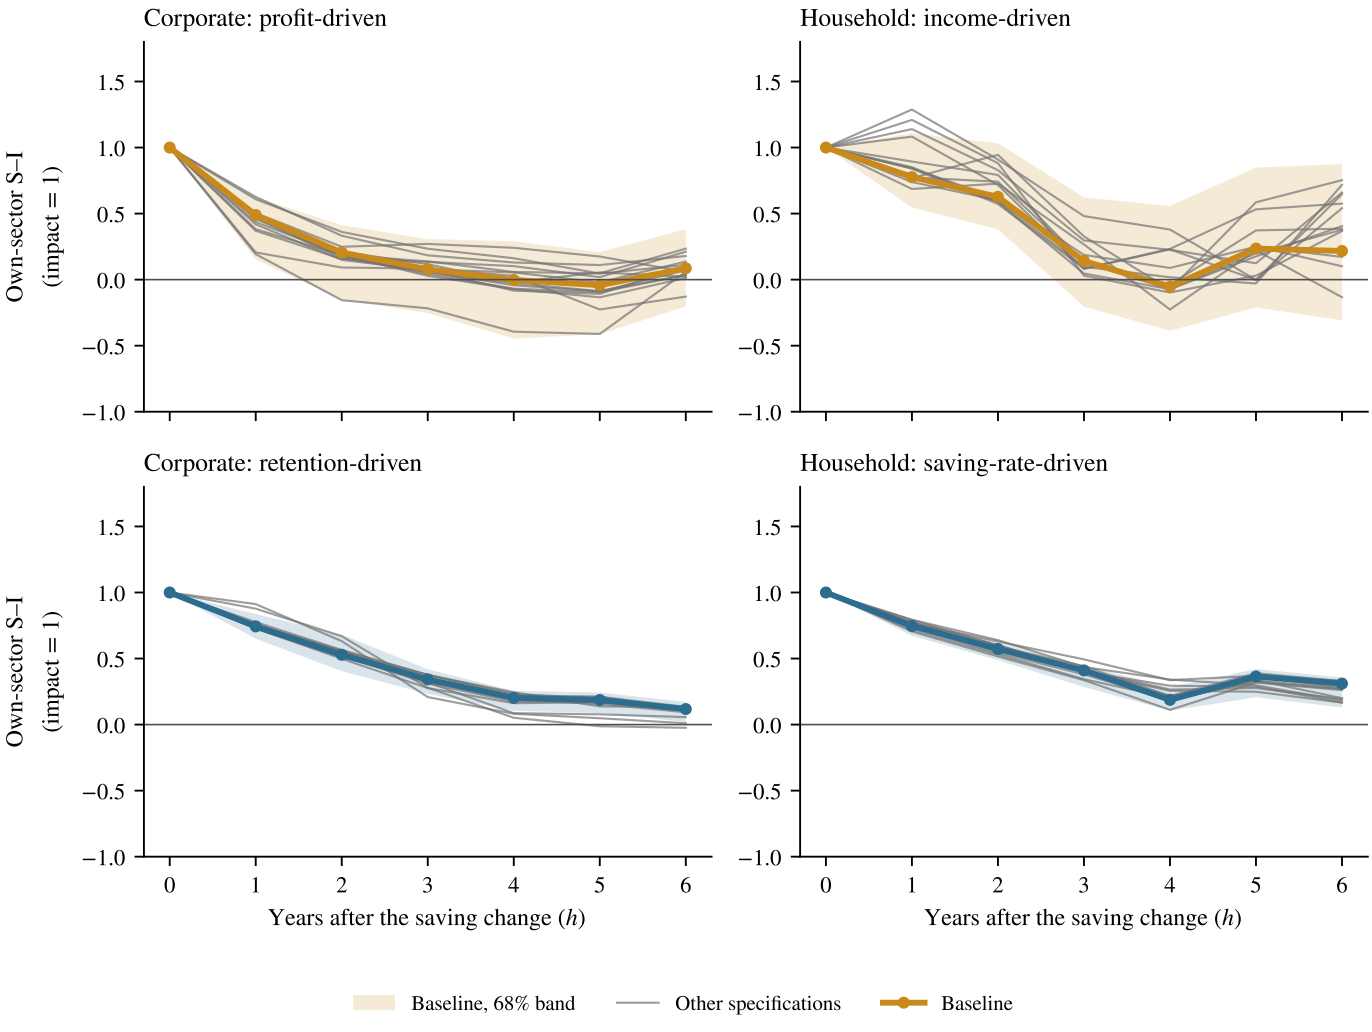
Full response paths across 15 specifications



Notes: Gray lines: lag length 1, 3 and 4; added controls (ΔCA, change in the other sector's balance, Δoperating surplus, Δsaving rate, Δdisposable income, Δold-age dependency, all of these, ToT growth); the other sector's components at t; unweighted; windows ending before 2020; outcome years 2020–21 dropped. All keep the own-sector balance in levels.
